As a key stakeholder we would value your attendance at one of the workshops and have tried to locate them as conveniently as possible. The purpose of the workshops is to provide an explanation of the project in order that you can assist the project team in identifying key issues and impacts that need to be investigated.

We believe that such a workshop has value in enabling you to hear other stakeholder views and issues in context with your own, thereby facilitating an integrated approach.

Attached is a RSVP form. To facilitate arrangements, please provide a response by **Wednesday, 25 July 2007**. Also provided is a list of invitees. Please check these and on your RSVP form indicate other people or organisations you believe should be invited.

Should you not be able to make the workshop please complete the comment sheet which has been mailed with the Background Information Document, or contact me in order that we may obtain your comment and/or make alternative arrangements to meet with you.

I thank you in anticipation for your active and meaningful participation in the EIA process, thus contributing to informed decision-making.

Kind regards.

Yours sincerely,
