

**NOTIFICATION OF A BASIC
ENVIRONMENTAL ASSESMENT OF A
PROPOSED INSTALLATION OF
A TRUNK WATER MAIN, ASSAGAY**

eThekweni Municipality's Water & Sanitation Unit plans to lodge an application for environmental authorisation with the KwaZulu-Natal Department of Agriculture and Environmental Affairs (DAEA) for the proposed installation of a trunk water main between Gevers and Fraser Roads in Assagay, Durban, in terms of the National Environmental Management Act, 1998 and Environmental Impact Assessment (EIA) Regulations GNR 385 & GNR 386, as amended.

Arcus GIBB (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP) to compile the application and undertake the associated Basic Assessment Process.

Project details: The project includes the installation of a 2.9km long, 400mm diameter steel water main pipe within the road reserve, **from the intersection of Gevers and Assagay Roads, along Hlupeka Place and portions of Kassier Road, Assagay Crescent and Alverstone Road, to the existing 400mm diameter water main in Fraser Road.** The trunk water main is intended to provide support to the existing 200mm diameter water main that currently feeds the Summerhills area, where there is a demand for additional water.

Public Involvement: All interested and/or affected parties (IAPs) are invited to participate by registering comments related to the project in writing within 30 days of the issuing of this notice. Comments should include the IAP's name, contact details and an indication of any direct business, financial, personal or other interest which they have in the application, by post, fax or email to:

**Ms Rashieda Davids
